Memorandum

Encl: (1) Finding of No Significant Impact (FONSI) for Advanced
Radar Detection Laboratory (ARDEL) Pacific Missile
Range Facility (PMRF)

1. In accordance with reference (a), and based on the analysis contained in reference (b), the U.S. Navy finds that proposed actions described in the Advanced Radar Detection Laboratory (ARDEL) Pacific Missile Range Facility (PMRF) Environmental Assessment (EA) will not significantly impact the human environment and therefore, preparation of an Environmental Impact Statement (EIS) is not required. Subject to implementation of actions identified in paragraph two and the protective measures described in enclosure (1), compliance with the National Environmental Policy Act (NEPA) has been satisfied and the project may be initiated.

2. Council on Environmental Quality regulations requires public notification of the availability of the EA, FONSI, and the decision not to prepare an EIS. Enclosure (1) should be provided to local newspapers for publication and mailed to interested parties. Please provide verification of local newspaper publication.

3. The EA and enclosure (1) have been reviewed by Naval Sea Systems Command counsel and found to be legally sufficient in a memorandum dated 13 August 2009 (reference (c)).

Subj: FINDING OF NO SIGNIFICANT IMPACT (FONSI) FOR THE
